## PROFILE

Highly skilled Full Stack Web Developer with extensive experience in building dynamic and scalable web solutions. With expertise in WordPress development, I specialize in creating custom themes, plugins, and optimized websites that meet modern performance and design standards. Leveraging Laravel and Node.js, I craft robust backend systems, APIs, and applications that are secure, efficient, and scalable. On the frontend, I excel in Vue.js, delivering intuitive and engaging user interfaces that provide seamless user experiences.

## WORK EXPERIENCE

- **F.C. Tucker Company Inc.** 2014 - 2025  
Full-stack Web Developer
  - Design and develop custom web applications utilizing PHP and frameworks such as Laravel and CodeIgniter. These applications enhance the capabilities of our agents by facilitating seamless access to essential tools and resources for real estate property marketing, thereby optimizing efficiency and productivity.
- **Factory Direct Pty. Ltd.** 2009--2014  
Full-stack Web Developer
  - Develop and maintain e-commerce websites that cater to our customers across Australia. My responsibilities encompass the creation of custom plugins to augment the functionality of our online store, including the integration of payment gateways, the generation of customized reports, and the optimization of stock management processes.
- **Topworld Travels** 2008--2009  
Web Developer
  - Conceptualize and design a user-friendly website tailored specifically for travelers. Implement an efficient online booking system that facilitates seamless reservations for our guests.
